Call for Papers for a Special Issue of China Economic Review (CER)

CER is an SSCI journal. Impact Factor: 1.366. 5-Year Impact Factor: 2.008.

China Economic Review (CER) will publish a special issue following the 2018 Chinese Economists Society (CES) North America Conference at the University of Georgia and the China Annual Conference at Hefei University of Technology. We welcome submissions on all topics focusing on China in the areas of economics and finance. Submissions are open to papers outside the two conferences, although papers that have been presented in the above two conferences will be given a priority.

As stated on the journal's website, the CER "publishes original research works on the economy of China, and its relation to the world economy. We seek, in particular, quantitative and analytical papers dealing with institutional change, policy and performance of the Chinese economy; research that compares the development process in China with that in other countries is encouraged."

All submissions to the special issue will be subjected to the regular double-blind peer review. The guest editors of this issue will be Professor Zhuo Chen (zchen1@uga.edu) at University of Nottingham Ningbo China and University of Georgia, and Professor Li Qi (lqi@agnesscott.edu) at Agnes Scott College. The deadline for submissions is December 15, 2018. Papers submitted before the deadline will be processed as they are received.

Submission guidelines:

1. Authors should read the instructions for authors prior to the submission:
2. <https://www.elsevier.com/journals/china-economic-review/1043-951X/guide-for-authors>
3. Papers should be submitted on the journal's website <https://www.journals.elsevier.com/china-economic-review>
4. When submitting the paper in the submission portal, choose the article type as "SI: CES 2018". It is very important to choose this option and not any other ones.
5. As of February 2018, *China Economic Review* charges a nonrefundable fee of US \$100 for new submissions. Please note that for authors from European countries, the relevant VAT amount will be added to the submission fee. The journal charges a reduced submission fee of US \$50 for the members of The Chinese Economists Society. Submission fees will be used to support journal activities.
