Instructions for Session Chairs

Please familiarize yourself with the schedule prior to the conference.

If you chair one of the Online Sessions (Thursday morning and evening US time):

- Zoom links will be provided, and will be included in the final conference program. We expect to e-mail out the final conference program shortly before the conference starts. You can also find it on the conference website, click “Program” and then scroll down to the bottom and look for a link for conference program there.

If you chair one of the in-person sessions

- The rooms will have projector and screen, but you need to bring your own devices (laptop, presentation clicker etc.)
- If your session has a virtual presenter/discussant, you need to create a Zoom meeting and share the link with your virtual participant. This Zoom link will not be included in the conference program.

Suggested time allocation:

- Rising Star sessions: 3 papers for 1.5 hours; presentation (20 min), discussion (6 min), Q&A (4 min)
- Regular sessions: 4 papers for 100 minutes; presentation (17 min), discussion (5 min), Q&A (3 min)
- The session chair will track time and alert the presenter of remaining time at suitable intervals. The presenter must end his or her presentation once notified by the chair.

The Chinese Economists Society

The Chinese Economists Society (CES) is a non-profit academic organization registered in the United States. The CES strives to promote scholarly exchanges among members and contribute to the advancement and dissemination of economics and management sciences in China. Over the years more than 3000 individuals have joined the CES from academia, research institutions, and other public or private organizations throughout North America, Asia, Europe, and other regions of the world. CES members are in leadership positions in government agencies, universities, research institutes, multinational firms, and international organizations including the People's Bank of China, the World Bank, and IMF. The CES is considered the most influential group that bridges academic exchanges in economics and management sciences between North America and China.

To promote scholarly exchanges among its members, the Society holds annual conferences, with its first conference held in Princeton, NJ in 1985. In order to promote market-based economic reforms in China, the Society has organized its Annual Conference in China since 1993, often jointly hosted with a Chinese university. The CES conferences have been widely attended by internationally renowned economists, senior government officials, and business leaders. The Society also organizes themed North America conferences. The CES conferences have had profound policy impacts on China's market-oriented transition and reforms as well as economic development strategy.

In 1989, the CES launched an English-language journal *China Economic Review* (CER), which in just a few years achieved worldwide circulation and became an influential academic periodical on China's economy. The CES became a member of the Allied Social Sciences Association (ASSA) in 1992 and has sponsored independent and joint sessions with other associations at annual ASSA meetings since then.

The CES is committed to serving its members and promoting the scholarly exchange between academic and research communities in North America and in China.

Call for Papers for Two Special Issues:

China Economic Review (CER)

China Economic Journal (CEJ)

CES will organize two special issues to provide publication opportunities for papers presented at the 2023 CES North American Conference (in Oklahoma, US) and the 2023 Annual conference (in Wuhan, China). All submissions are welcomed, but preferences will be given to papers presented at these conferences.

Note that we have two special issues:

- China Economic Review: submission opens May 1, 2023, ends September 15, 2023
- China Economic Journal: submission opens July 1, 2023, ends November 15, 2023
- A paper rejected at CER may be transferred to CEJ, following the guest editor's recommendation. If the author(s) agree with the transfer, we intend to have the same review team for CEJ.

This year for the first time, we will accept submissions of papers written in Chinese, with the understanding that if the paper in Chinese is tentatively accepted, there is an additional step and approval of translation before the paper in English can be formally accepted.

与往年不同，我们今年欢迎优秀中文文章投稿。文章正式接收后，将由作者翻译成英文发表。参加了留美经济学会北美年会和中国年会的文章将优先考虑。

Call for Papers for a Special Issue of *China Economic Review (CER)*

CER is an SSCI journal. Impact Factor: 4.744. CiteScore 6.5.

China Economic Review (CER) will publish a special issue following the 2023 Chinese Economists Society (CES) North American conference (in Oklahoma, US) and the 2023 Annual conference (in Wuhan, China). We welcome submissions about all topics focusing on China in the areas of economics and finance. Submissions are open to papers outside the two conferences, although the papers that have been presented in the above two conferences will be given a priority.

As stated on the journal's website, the *CER* “publishes original research works on the economy of China, and its relation to the world economy. We seek, in particular, quantitative and analytical papers dealing with institutional change, policy and performance of the Chinese economy; research that compares the development process in China with that in other countries is encouraged.”

All submitted manuscripts are subject to initial appraisal by the guest editor, and, if found suitable for further consideration, to peer review by independent, anonymous expert referees.

The guest editors of this issue will be Professor Yan Bai (yan.bai@rochester.edu) at University of Rochester, Professor Kaiji Chen (kaiji.chen@emory.edu) at Emory University, Professor Lixin Li (lilixing@nsd.pku.edu.cn) at Peking University, and Professor Qihong Liu (qliu@ou.edu) at University of Oklahoma. The timeline for submission is **May 1, 2023-September 15, 2023**. Papers submitted before the deadline will be processed as they are received.

The original submission can be either English or Chinese, with final publication in English. For a conditionally accepted article in Chinese, the author(s) are responsible for translating the article into English before it is finally accepted by the editor for publication.

Submission guidelines:

1. Authors should read the instructions for authors prior to the submission: <https://www.elsevier.com/journals/china-economic-review/1043-951X/guide-for-authors>
2. Papers should be submitted on the journal's website <https://www.journals.elsevier.com/china-economic-review>
3. When submitting the paper in the submission portal, choose the article type as “**SI: CES 2023**”. It is very important to choose this option and not any other ones.
4. There is no submission fee.

We welcome submissions about all topics focusing on China in the areas of economics and finance. Submissions are open to papers outside the two conferences, although the papers that have been presented in the above two conferences will be given priority.

As stated on the journal's website, the *CEJ* "introduces readers to examination and analysis of the latest developments in the Chinese economy and government economic policies. It contains papers focusing on cutting edge issues in China's economic development with long-term significance. The papers are based on solid analytical logic and empirical evidence."

All submitted manuscripts are subject to initial appraisal by the guest editor, and, if found suitable for further consideration, to peer review by independent, anonymous expert referees.

The guest editors of this issue will be Professor Yan Bai (yan.bai@rochester.edu) at University of Rochester, Professor Kaiji Chen (kaiji.chen@emory.edu) at Emory University, Professor Lixin Li (lilixing@nsd.pku.edu.cn) at Peking University, and Professor Qihong Liu (qliu@ou.edu) at University of Oklahoma.
